# ASIAN LACQUER CRAFT EXCHANGE PROGRAM IN CAMBODIA

Lacquer arts is an important Asian cultural heritage. The purpose of the Asian Lacquer Craft Exchange Project is to promote natural lacquer arts, crafts, industry, and education throughout Asia. We do this by bringing artists, artisans, educators, and researchers together for seminars, workshops, and art exhibitions.

The Program consists of an Exhibition of International Lacquer Art at the Hotel Sofitel Angkor Phokeethra and Stocker Studio (Angkor Artwork) from 1 to 9 September. Over 75 lacquer artworks will be exhibited. The Symposium and Workshops are held from 1 to 4 September. Lacquer artists, artisans, and researchers from Cambodia and 11 Asian and European nations are participating. Please join us!
